

# KIDNEY HEALTH in your hands

Saving lives by improving management of  
Chronic Kidney Disease and Acute Kidney Injury

**NHS**

East Midlands Strategic Clinical Networks

## Aims of the conference:

- To promote the need for primary care, community and secondary care to focus on CKD and AKI
- To share information on current improvement work within East Midlands and nationally
- To create a compelling case for action by providers and commissioners to improve CKD and AKI management
- To get your input into shaping the Strategic Clinical Network's quality improvement programme on CKD & AKI

Key Note Presentation by  
**Dr Richard Fluck, National Clinical Director for Renal Disease, NHS England**

**Wednesday 26 November**  
**09.30am to 4.30pm**  
**Venue: Holywell Park,**  
**Loughborough LE11 3GR**
